Discover a world of smart possibilities to make your life easier.

### INVENTORY ASSISTANT

Check your food and drinks inventory, create a virtual shopping list and have all the expiring dates at your fingertips.

**ITA** Monitora dal tuo smartphone l'inventario dei tuoi cibi, tieni sotto controllo le date di scadenza e crea la tua lista della spesa virtuale.

**FRA** Vérifiez à distance la disponibilité des différents types d'aliments dans le réfrigérateur à tout moment, pour créer votre liste de courses et surveiller les dates de péremption.

**ES** Compruebe a distancia la disponibilidad de los distintos tipos de alimentos en el frigorífico en cualquier momento, para crear su lista de la compra y controlar las fechas de caducidad.

### SMART DRINK ASSISTANT

Choose the beverage that you want to chill and the hOn App will set the right timing to cool down the drink.

**ITA** Scegli la bevanda che vuoi rinfrescare e l'App hOn imposterà automaticamente il tempo che serve per il raggiungimento della temperatura ideale.

**FRA** Choisissez la boisson que vous souhaitez rafraîchir et l'application hOn réglerait automatiquement l'heure dont vous avez besoin.

**ES** Elija la bebida que desea refrescar y la aplicación hOn establecerá automáticamente el tiempo que necesita.

### REMOTE CONTROL

Handle temperature and modes of your fridge directly from your smartphone.

**ITA** Gestisci la temperatura del frigorifero e tutte le sue funzioni direttamente dal tuo smartphone.

**FRA** Gérez la température du réfrigérateur et toutes ses fonctions directement depuis votre smartphone.

**ES** Gestiona la temperatura del frigorífico y todas sus funciones directamente desde tu smartphone.
